Description

- Ideal for long-term deployment to remove sheen after oil-based spills or absorb oil residue in retention ponds, catch basins, tanks and more
- Polypropylene skin resists tearing; reduces dust and holds in liquid, even when saturated
- Attached string allows socks to be tied down, tied together or dipped into tanks
- Bright white colour makes sock easier to see in outdoor environments and clearly shows saturation level
- Skin is UV resistant up to 12 months; provides long-term outdoor use without degradation
